

MANISH KUMAR TAILOR

AI Engineer | GenAI | LLMs | Agentic AI

+91 7737807496 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Credly](#)

SUMMARY

AI Engineer with **1.5+ years of experience** building production-grade GenAI applications, LLM-powered agents, RAG systems, chatbots, and automation workflows. Experienced in Python, Google ADK, Gemini, LangChain, FastAPI, vector databases, and cloud platforms, with hands-on experience delivering AI solutions for enterprise clients.

PROFESSIONAL EXPERIENCE

SDE1 — AI & Engineering, HashedIn by Deloitte Feb 2026 – Present

- Building production **agentic AI solutions** in Python using **Google ADK** to design, develop, and deploy autonomous AI agents.
- Designing agent workflows with specialized capabilities, orchestration, tool integration, and enterprise-focused generative AI use cases.
- Integrating AI agents with **Gemini Enterprise** to deliver enterprise-grade generative AI capabilities.

AI Developer — TechnologyMindz Nov 2024 – Jan 2026

- Developed **20+ production AI solutions** for enterprise clients, including customer-facing chatbots, LLM-powered agents, invoice-processing automation, and AI web crawlers.
- Built end-to-end AI and automation workflows covering data collection, processing, decision-making, and execution to streamline enterprise operations.
- Designed and integrated **LLM, RAG, NLP, and automation** components into production applications using Python and modern AI frameworks.
- Partnered directly with clients and internal stakeholders to gather requirements, scope AI solutions, and support successful product delivery.

HACKATHON PROJECT

K’ala Copilot — Multi-Agent AI System Microsoft Agentic Hackathon

- Designed a **multi-agent system** to help artisans automate product onboarding, digital storytelling, and marketing using **multimodal LLMs and RAG**.

AI PROJECT

Chat with PDF Bot — LLM-Powered Document Assistant Personal Project

- Built an **LLM-powered conversational chatbot** that enables users to upload PDF documents and ask questions using information retrieved from the uploaded content.

TECHNICAL SKILLS

AI & GenAI	LLMs, RAG, Agentic AI, Multi-Agent Systems, Prompt Engineering, Google ADK, Gemini Enterprise, LangChain, NLP, Model Fine-tuning
Programming	Python (Advanced), SQL, REST APIs
Frameworks	FastAPI, TensorFlow, Scikit-learn, Hugging Face Transformers
Data & Databases	PostgreSQL, MySQL, Supabase, MongoDB, Pinecone, FAISS, Weaviate, Pandas, NumPy
Cloud & DevOps	AWS, Azure, Azure AI Foundry, Azure AI Search, Lambda, Docker, Git

CERTIFICATIONS

Anthropic Claude Certified Architect — Foundations (CCA-F) 2026

EDUCATION

B.Tech in Computer Science & Engineering (Specialization in AI & ML) 2021 – 2025

Indian Institute of Information Technology Kota, Rajasthan **CGPA: 8.4**
